

Organize Stories in Pictello

Pictello is a simple way to create talking photo albums and talking books. Each page in a Pictello Story can contain a picture, up to five lines of text, and a recorded sound or text-to-speech using high-quality voices. In this tutorial you will how to keep the library organized using folders and using copy, paste and move on stories.

Creating a Folder

A folder can contain stories and other folders. To create a new folder, press the *Add Folder* ① button.

Type the name of your folder in the text box ①. To add a picture to your folder, press the picture frame ②.

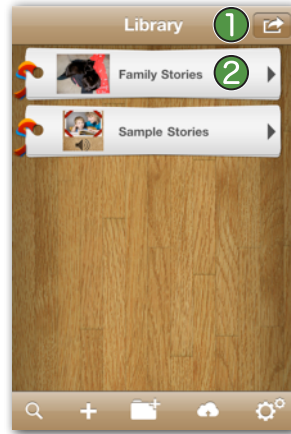

You'll be given choices for where to get a picture. The actual choices depend on the presence of a camera in your device. To pick a photo from the photo library, press ③.

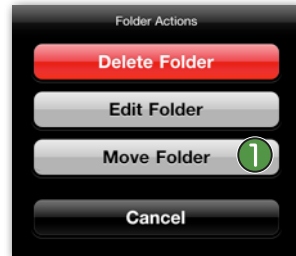

Press *Save* ① to create your folder, or *Cancel* ② to return to the previous screen without creating a folder.

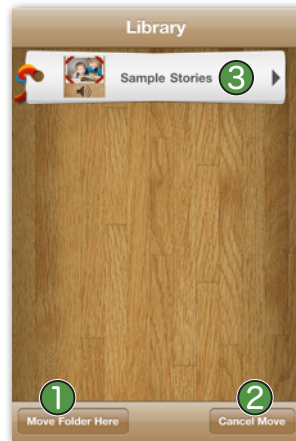

Moving a Folder

Press the *Action* ① button, then touch the row ② of the folder you want to move.

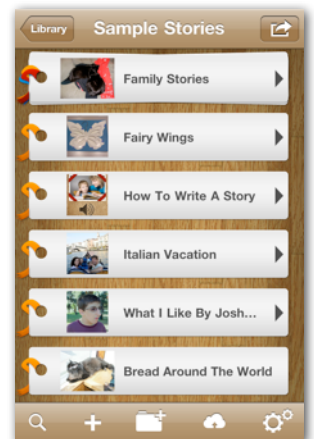

Select *Move Folder* ① from the list of choices that appears.

The folder you're moving disappears, and *Move Folder* ① and *Cancel Move* ② buttons appear on the bottom of the page. Navigate to the folder where you want to move the folder (for example, the *Sample Stories* folder ③).

Press the *Move Folder* ① button. The folder will be moved to the folder you've navigated to.

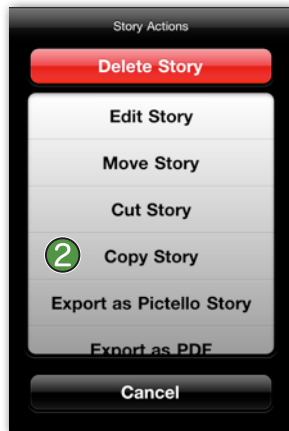

Copying and Pasting Stories

Pictello stories can be copied, cut, and pasted between and within folders. To use copy and paste to duplicate a story, press the *Action* 1 button, and then tap the story you want to copy.

A list of actions will appear. Select *Copy Story* 2.

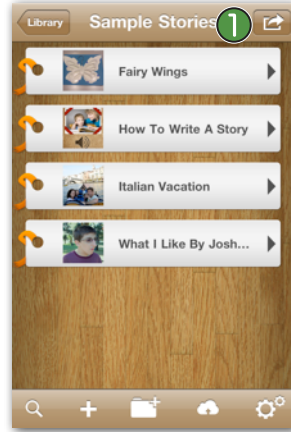

A *Paste Story* 3 button will appear. Press the *Paste Story* button, and a copy of the story will appear in the folder.

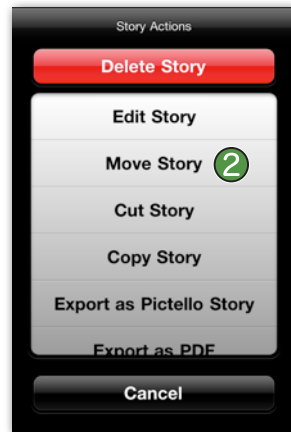

Press the *Done* button 4 to exit edit mode.

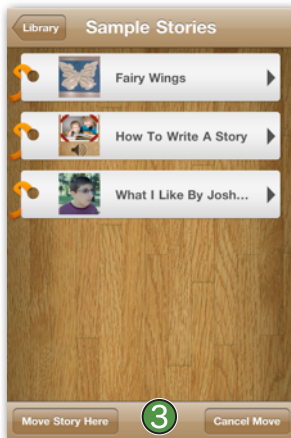

Moving Stories Between Folders

To move a story between folders, press the *Action* 1 button, and then tap the story you want to move.

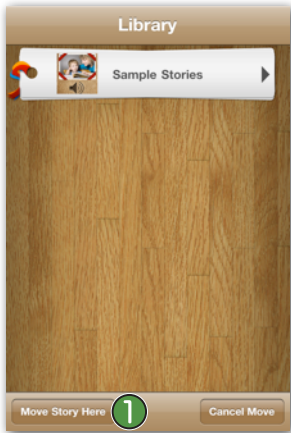

A list of actions will appear. Select *Move Story* 2.

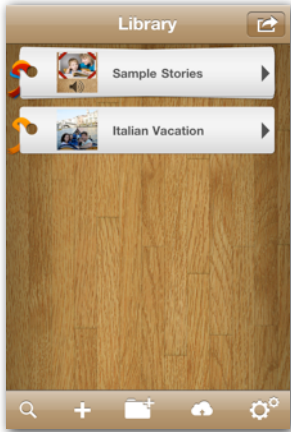

The story will disappear, and you will automatically be taken out of edit mode. The buttons on the toolbar at the bottom of the screen 3 will change to *Move Story Here* and *Cancel Move*.

Navigate to the folder where you want to move the story (in this case, the main Library folder, reached by the *Back* button 4).

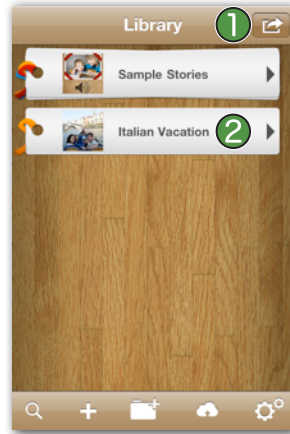

When you get to the folder where you want to move the story, press the *Move Story Here* ① button.

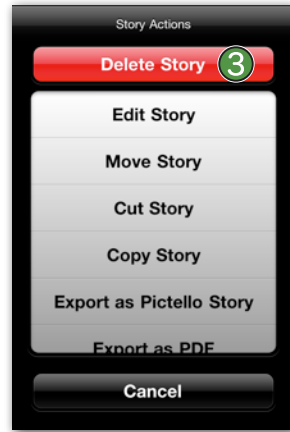

The story will now appear in its new folder.

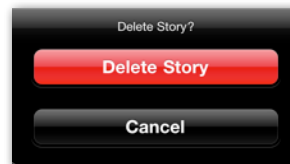

Deleting a Story

To delete a story, first press the *Action* ① button, and tap the story's row ②.

This time choose *Delete Story*.

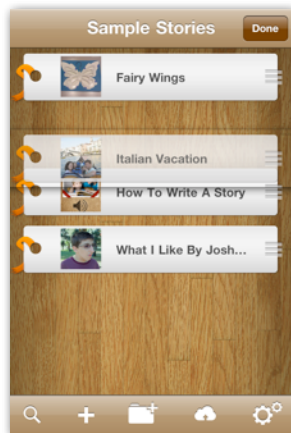

To confirm deleting the story, press *Delete Story*.

Moving Stories Within a Folder

Tap the *Action* button ①. Gray lines will appear on the right end of the rows. Drag the stories you want to move using the gray lines. Tap the Done button when you're finished moving stories.

You can move folders this way also. Folders and stories are always in separate sections of the screen - folders on top, stories below the folders.
