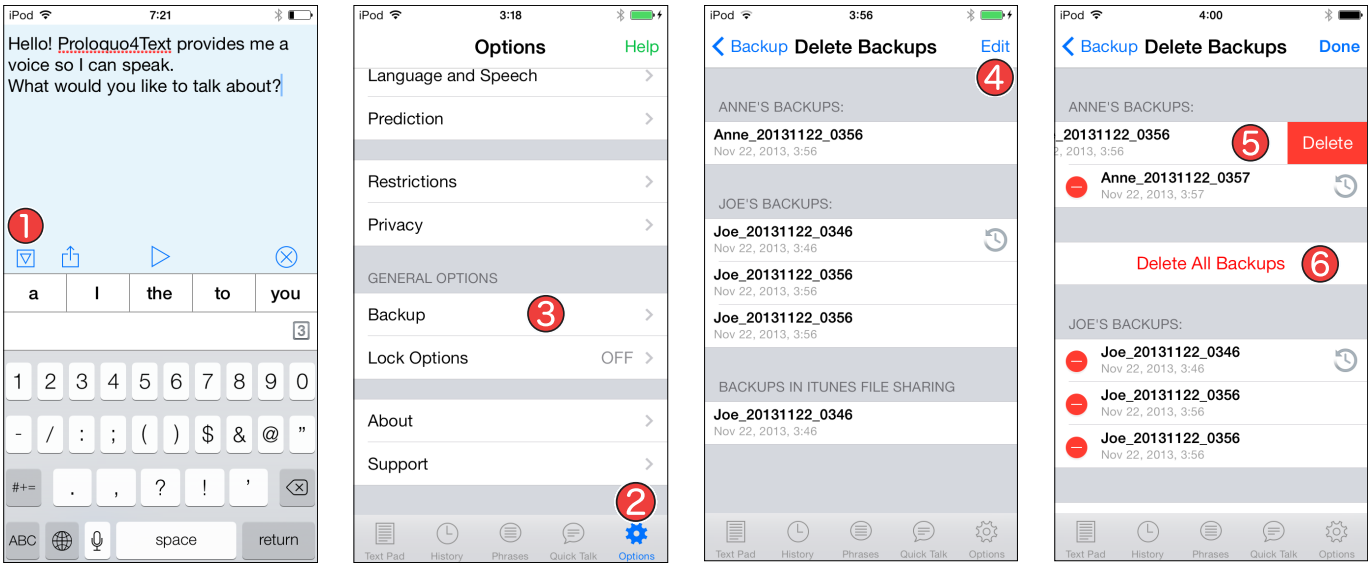
Deleting Backups on iPhone/iPod touch



1 Hiding the keyboard
Launch Proloquo4Text by tapping on its icon. If the keyboard is visible, tap the *Show/Hide Keyboard* button.

2 Accessing the Options
Tap *Options* in the bottom toolbar to access the Options.

3 Going to Delete Backups
In the Options, tap *Backup.* Then tap *Delete Backups* to delete the backups of one or multiple users.

4 Editing backups
In the Delete Backups Options, tap *Edit* to be able to delete the backups you want.

5 Deleting a backup
Tap the “minus” icon next to the backup that you want to delete, and then tap the *Delete* button.

6 Deleting all backups
Tap the *Delete All Backups* button, and then tap *Delete* when prompted to delete all the backups for a user.
