

Construction

12 per page early functions

Modified for pick up and give/show access

Selecting pages to include with pick up and give/show access.

Pick up and give/show access requires two copies of each page. One copy becomes a page in the book. The second copy is cut into individual cards and attached to the book page with Velcro®. The individual cards and Velcro® add extra thickness and weight to the communication book. It is therefore advisable to consider which pages need to be included in the communication book and/or modified for pick up and give/show access.

Options for providing children who need to use a pick up and give/show access methodology with this range of vocabulary include:

- Reduce the number of pages in the PODD communication book by making separate activity displays and removing those activity pages from the PODD communication book. These separate activity displays will need to be positioned in the child's environments so that they are readily accessible to the child and their partners. You may need to create multiple copies of displays for activities that occur in more than one environment. You could also choose to make a supplementary "activity display" folder that is carried with the child, and their PODD, in multiple environments. Maintaining the page numbers from the PODD pages on these displays with an index at the front of the folder may assist partners to more efficiently locate the required display. Using a ring binder allows for displays (pages) to be taken out and used singly during the relevant activity. This will allow more space to position the child's PODD communication book so that it is also readily available during the activity.
- Only add individual symbol cards to pages the child will frequently use to expressively communicate. This may be a reasonable compromise for children who benefit from pick up and give/show to expressively communicate, but are able to follow a partner's light/finger point for receptive communication.
- Only include high use vocabulary in each category, i.e. be more selective about which vocabulary to include in each section to reduce the number of pages in each section. You may choose to place other vocabulary on a symbol list.
- Consider whether the child could manage more on a page, e.g. use the 16 per page PODD template which has fewer pages. This may also be a reasonable compromise for pages primarily used by others to provide receptive input.

Materials & Equipment List

- Color printer
- Laminator
- Scissors
- Two **letter sized** pieces of thick plastic (e.g. the covers of sheet protector presentation books) or two pieces of thick laminated cardboard 8 ½ by 11 inches in size.
- 2 x split key rings and a single hole punch OR spiral binder and coil
- Letter size plain paper (approximately 90 sheets)
- Letter size Label stickers – (one label per sheet) OR letter size paper and glue stick (approximately 30 sheets)
- Matt 80 micron laminating pouches (approximately 90 sheets)
- Stick on white Velcro dots or Velcro hook and loop strips

Printing main pages for pickup and show/give access

01 main to 50 nappy/toilet – plus any selected option pages.

REMEMBER to print TWO copies of each page with pick up and give/show individual symbol cards.

TIPS

- Printing directly from simPODD on your iPad requires a wifi enabled printer (see your printer manual for details)
- We recommend using the option print from your computer as it provides more control over the print settings.
 - Scaled printing is only available using the computer option
 - Exporting to the computer also creates a backup pdf of your personalized PODD book.

To print from your computer:

1. Load your printer with letter size plain paper.
2. Export a PDF from simPODD on your iPad to your computer
 - a. Select 'Books' from the drop-down menu  in the upper right corner.
 - b. Select the share button  on the lower right side of the book you wish to print.
 - c. Select 'Mail' to email the PDF to your computer (Mac users can also use AirDrop)
3. On your computer open the PDF (It is easier to navigate through the pages using Thumbnail images. Set your software to show these).
4. Scroll through the pages to identify the PDF page number for the last page of the book (*50 toilet / nappy*). This number depends on your customization.

5. Select Print. Check in the print settings that paper size is letter size and orientation is landscape.
6. Set to print pages from 1 to (the number you identified at step 4). Print.
7. Print duplicate pages to make individual symbol cards. Set the print range to include only the pages you have selected to make pick up and give/show. (It is recommended to make pick up and give/show symbol cards for all pages from *01a to 12c places and 18 food drink.*)

To print directly from simPODD on your iPad:

1. Load your printer with letter size plain paper.
2. Select 'Books' from the drop-down menu  in the upper right corner.
3. Select the share button  on the lower right side of the book you wish to print.
4. Select 'Print' and set the printer you would like to print to.
5. Using the preview thumbnails, scroll through (swipe to the side) the previews until you reach last page of the book (*50 toilet / nappy*).
6. Tap on the preview image. Select *Stop after page [the current page number]*.
7. Confirm Options are 1-(page number selected at 6), single-sided, color
8. Select 'Print' in the upper right corner.
9. Print duplicate pages to make individual symbol cards. In simPODD print preview, select to print only the pages you plan to make pick up and give/show. (It is recommended to make pick up and give/show symbol cards for all pages from *01a to 12c places and 18 food drink.*)
10. Select 'Print' in the upper right corner.

TIP Separate the duplicates from the main book pages for later use.

Printing the lists and instruction page

Load your printer with **A4 stickers** (printer labels with one label per sheet)

Special lists and Instructions

The following pages are printed onto letter size stickers. Select the pages to suit your customized PODD.

- ✓ 09 people list
- ✓ 18 food drink list
- ✓ Instructions back cover

To print from your computer:

1. Load your printer with letter size sticker paper.
2. On your computer open the PDF (It is easier to navigate through the pages using Thumbnail images. Set your software to show these).
3. Scroll through the pages to identify the PDF page number for *09 people list*. This number depends on your customization.
4. Select Print. Check in the print settings that paper size is letter size and orientation is landscape.
5. Set to print the page number you identified at step 3. Print.
6. Repeat steps 3-5 for *18 food drink list*, *Instructions back cover* and any additional lists.

To print directly from simPODD on your iPad:

1. Load your printer with letter size sticker paper.
2. Select 'Books' from the drop-down menu  in the upper right corner.
3. Select the share button  on the lower right side of the book you wish to print.
4. Select 'Print' and set the printer you would like to print to.
5. Using the preview thumbnails, scroll through (swipe to the side) the previews until you reach the page *09 people list*.
6. Tap on the list and select 'Start at Page [*number of the page*]'. Tap page again and select 'Stop After Page [*number of the page*]'.
number of the page
7. Scroll through the preview to *18 food drink list*.
8. Tap on the list and select 'Add page [*number of the page*]'.
number of the page
9. Repeat for *Instructions back cover* and any additional lists.
10. Select 'Print' in the upper right corner.

General Lists

Check that the instructions are correct for the child and that the child's name has been inserted. An unaltered page set requires 24 *lists*. You may need to adjust the number of lists you print to allow for your customization.

To print from your computer:

1. Load your printer with letter size sticker paper.
2. Count how many general *list* pages you require.
3. On your computer open the PDF (It is easier to navigate through the pages using Thumbnail images. Set your software to show these).
4. Scroll through the pages to identify the PDF page number for the general list template. This number depends on your customization.
5. Select Print. Check in the print settings that paper size is letter size and orientation is landscape.
6. Set to print the page number you identified at step 4.

7. Set to print as many copies of the list as you require. Print.

To print directly from simPODD on your iPad:

1. Load your printer with letter size sticker paper.
2. Count how many general *list* pages you require.
3. Select 'Books' from the drop-down menu ☰ in the upper right corner.
4. Select the share button  on the lower right side of the book you wish to print.
5. Select 'Print' and set the printer you would like to print to.
6. Using the preview thumbnails, scroll through (swipe to the side) the previews until you reach the general list template.
7. Tap on the list and select 'Start at Page [*number of the page*]'. Tap page again and select 'Stop After Page [*number of the page*]'.
[number of the page]
8. Use the '+' & '-' buttons to select as many copies of the list as you require.
9. Select 'Print' in the upper right corner.

Constructing the book

You will need:

- Letter size 80 micron laminating pockets or a roll laminator
- Printed page set
- Second set of printed pages
- Scissors or blade knife (Stanley knife)
- Stick on white Velcro® dots or Velcro® hook and loop strips
- Glue stick

Important information re: Laminate thickness

PODD communication books have many pages to laminate and they can become heavy and unwieldy if thicker laminate is used. Even a few extra microns on each page can significantly add to the weight and thickness of the whole communication book.

DO NOT USE laminate thicker than 80 microns.

Cut out the book pages

1. Compile the set of pages to be used as book pages (i.e. NOT the duplicate set of pages that will be used to make individual symbol cards).
2. Using scissors or a blade to cut around the labeled tab and along the top of the other tabs on the page (see diagram below).
3. Repeat for every communication book page and put aside. Discard excess.

Laminate the book and the individual card pages

(Remember to use 80 micron – NOT thicker- laminate)

1. Laminate all the duplicate pages to be made into individual cards for pick up and give/show access. Put them aside.
2. Laminate the book pages *01 main* through to *50 toilet/nappy* and the *Instructions sticker- pick up and give show* sticker. Leave a 5 mm border of laminate at the top and sides of the page.

3. Trim off excess laminate from the bottom of each book page leaving a 5 mm border. Round off at the corners for safety.

Cut out the individual symbol cards.

TIP Cut out and attach cards to the pages one page at a time. (See below)
This saves time hunting for the right page to attach each card.

Take the second copy of the laminated pages and cut out each symbol close to the left, right and bottom of the cell borders. Cut approximately 0.5 cm above the top cell border. This leaves space to attach the card to the book page without covering the symbol with Velcro®. Round off the corners.

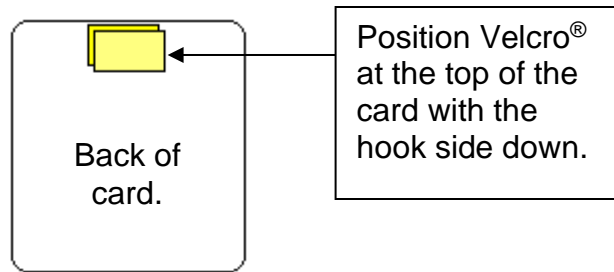

Attach the cards to the book pages

1. Attach hook and loop Velcro® strips to each other and cut into small rectangles (cut the strip in half lengthways, and then cut across the two halves of the strip to make 0.5cm rectangles).

2. Take paper backing off the hook (rough) side of the pair and attach it to the top of individual card (on the strip above cell border).

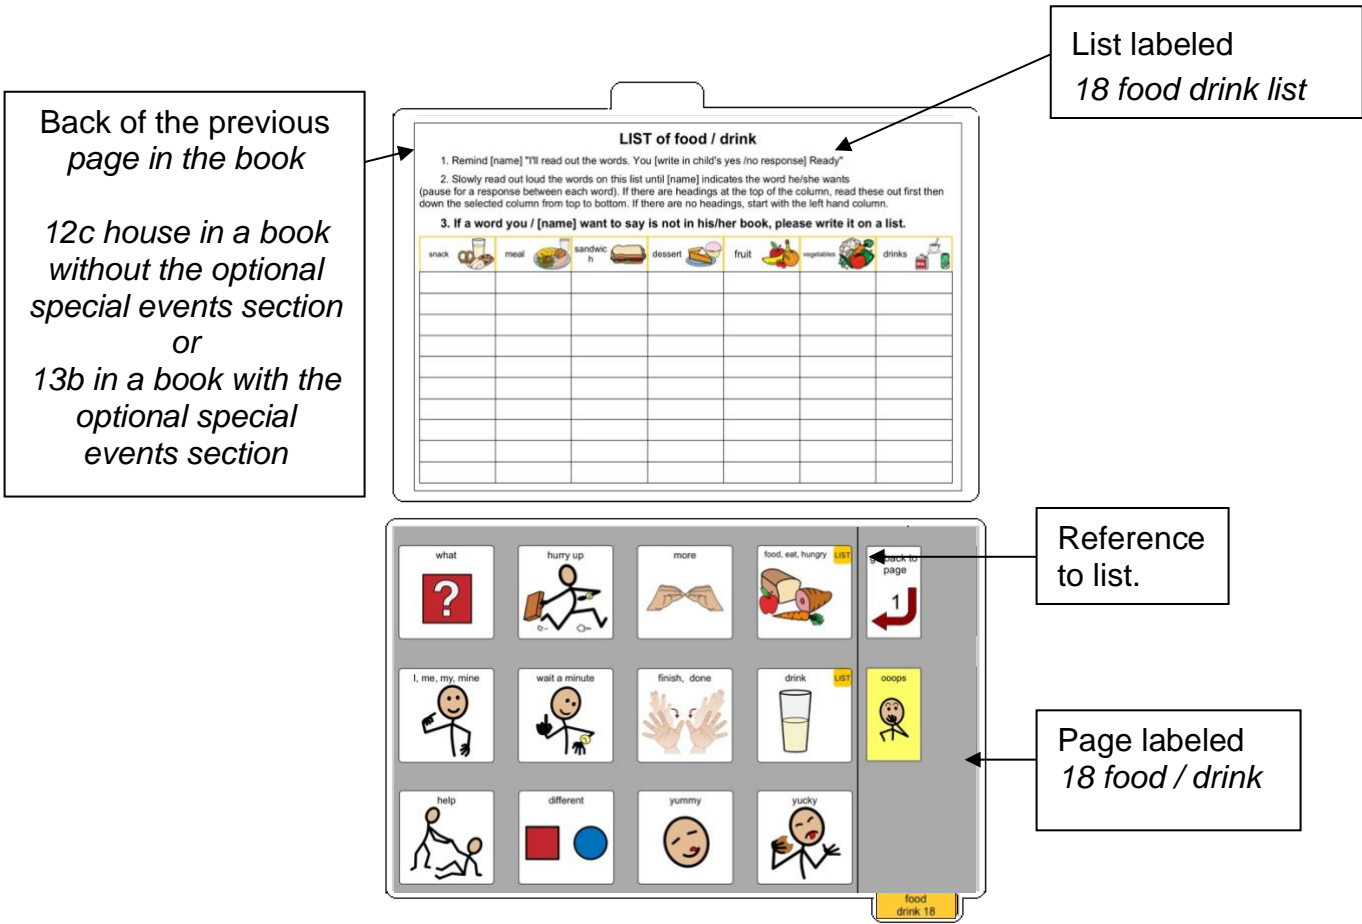

3. Peel the paper off the loop (soft) side of the Velcro®. Align the card over the top of the corresponding symbol on the book page. Push down to attach the Velcro® to the book page.

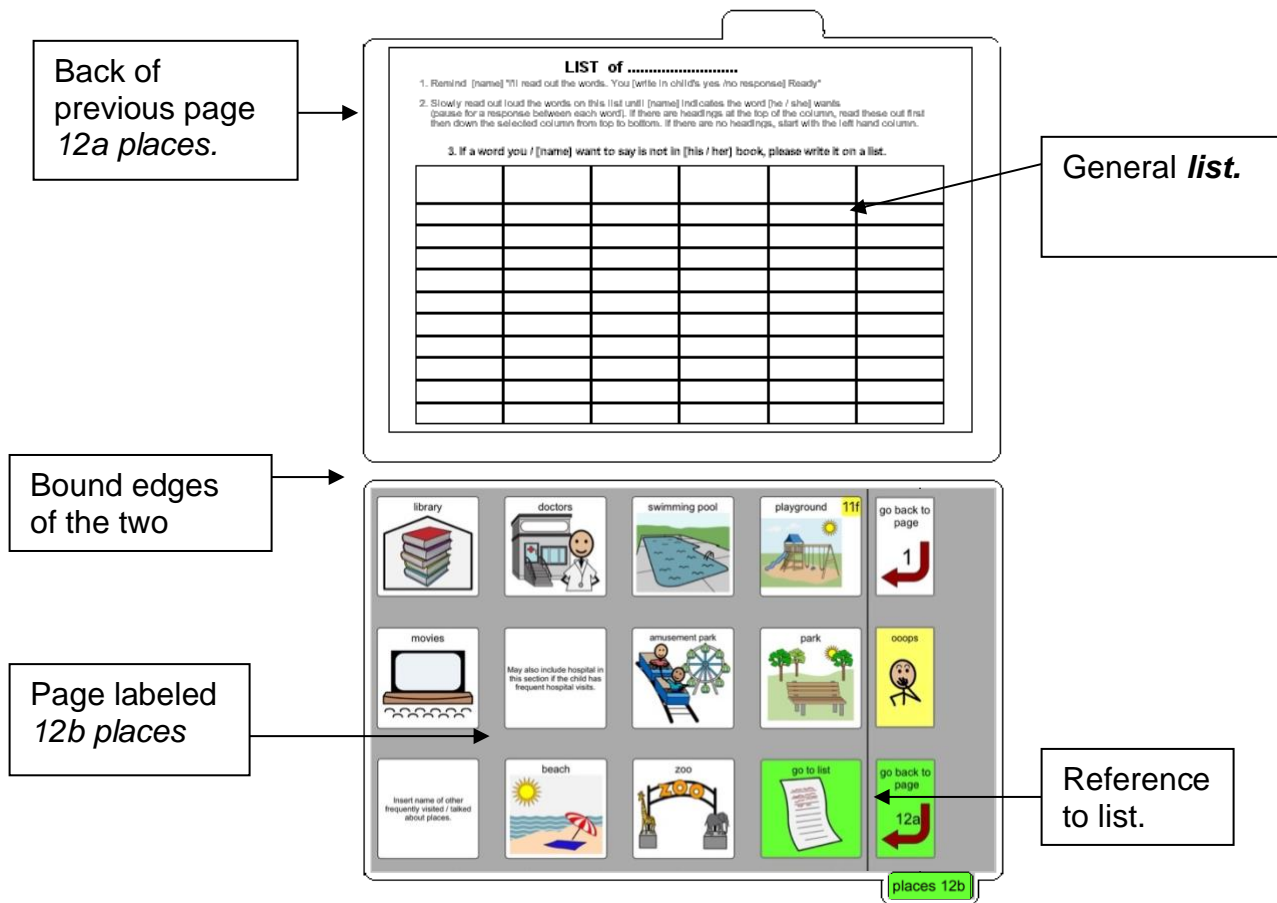

Adding the Special Lists

1. Trim the *special list* stickers close to the edges of the list border.
2. Put the laminated pages in communication book page order. Leaf through the communication book pages until you come to a section which has a special list. Turn to the page with the GO TO LIST instruction.
3. Peel off the back of the list sticker and stick it to the back of the previous page (as it will appear in the bound communication book). Note that the list is orientated so that it can be read when the book is opened at the page with the GO TO LIST instruction. See diagram below.

Adding the General Lists

1. Check that **all** of the laminated book **pages** are in the **correct order**
2. Leaf through the page set stopping when you come to a page that has a **GO TO LIST** instruction. Cut out a general *list* sticker. Peel off the back of the list sticker and stick it to the back of the previous page (as it will appear in the bound communication book). Note that the list is orientated so that it can be read when the book is opened at the page with the GO TO LIST instruction. See diagram below

3. Using a pen or marker write the name of the category at the top of the list.

LIST of _____ 5

1. Remind [name] "I'll read out the words. You [write in child's year his/her name] "Ready"

2. Slowly read out (and the words on this list until [name] indicates the word he wants (pause for a response between each word). If there are headings at the top of the column, read those out first then down the selected column from top to bottom. If there are no headings, start with the left hand column.

3. If a word you / [name] want to say is not in his book, please write it on a list.

Using a pen or marker write the name of the category at the top of the list.

Covering and Binding

To create the covers you will need:

- Laminated *instructions for back cover* printed on an A4 label sticker.
- Two **letter sized** pieces of thick plastic (e.g. the covers of sheet protector presentation books) or two pieces of thick laminated cardboard 8 ½ by 11 inches in size. Make sure to round off any sharp corners on the cover.

Take the sticker labeled *Instructions back cover*, peel off the back and stick it to the inside of the back cover.

Bindings

This type of PODD works best when bound with split rings or with a spiral binding. If you use a folder or comb binding, the PODD will not be able to fold back on itself, taking up more space and making it more difficult to handle.

Binding with split rings

You will need:

- 2 split rings of appropriate size
 - Hole punch
 - Cloth tape
1. Mark where to punch the holes in your pages and covers away from the individual symbol cards, approximately 6.5cm from the left side and 10.5cm from the right hand side. Punch holes.

Ensure you punch holes between the cells away from the pull off and show cards.

2. Add pages and letter files to the split rings. You may choose to close the opening on the ring after the pages are in place with a small piece of cloth tape. This stops the pages catching in the rings when in use.

Spiral binding

Bind as per the instructions for your Spiral Binding Machine.
